About Us

The Texas A&M Energy Research Society (ERS) is a community established by the Texas A&M Energy Institute for undergraduate & graduate students and postdoctoral fellows conducting energy-related research under an Energy Institute faculty affiliate.

As our society's members prepare to launch careers in academia, industry, or government, ERS organizes events to showcase energy-related research at Texas A&M, promote collaborations, and enhance interactions with industrial communities.

Our Mission

ERS aims to create a dynamic and synergistic environment within Texas A&M University through technical and social events. We strive to represent all students and researchers in various energy fields and provide them with a platform to develop and improve their training, encourage and strengthen their research, and provide opportunities for social interaction.

TEXAS A&M UNIVERSITY
Texas A&M
Energy Institute

TAMU ERS is affiliated with the Texas A&M Energy Institute, a multi-disciplinary organization that pursues and supports new approaches for energy research, education, and partnerships.

Our Flagship Event: Annual Conference of Energy (CoE)

ERS annually partners with the Texas A&M Energy Club and the Texas A&M Energy Institute to host the Conference of Energy, which features oral and poster presentations, plenary lectures, and strong participation from industry and government.

Oral Presentations and Posters

Undergraduate and graduate students in various disciplines, faculty, and industry professionals give oral and poster presentations in various categories related to the energy industry.

Plenary Speeches and Panels

Sponsors (academic and industrial professionals alike) are invited as distinguished plenary speakers or panelists to share their experiences and knowledge, as well as pressing issues and topics in the current energy market, with conference attendees. Previous sponsors include Shell, Idaho National Laboratory (INL), CPS Energy, and Ansys. Previous panelists include sponsors from companies such as TEX-E and AspenTech.

Annual Conference of Energy 2025

Our theme:
"Engineering, Science, and
Policy Pathways to a Resilient
Energy Future"

Benefits for Our Sponsors

Brand Recognition

The company/laboratory will be acknowledged on our event and marketing materials. This will enhance visibility among students, faculty, and energy professionals within Texas A&M, visiting universities, and industry groups.

Engagement Opportunities

All sponsors (Gold and above) receive a dedicated exhibit table where they can interact with attendees. This is a valuable chance to recruit, showcase products or present achievements, and share your mission.

Potential Talent Recruitment

Platinum and Sapphire sponsors receive access to our exclusive resume book, showcasing top graduate and undergraduate students focused on energy.

Distinguished Guest Invites

Sapphire sponsors are invited as distinguished plenary speakers to speak about their company/laboratory's energy initiatives and share knowledge with students, faculty, and other industry professionals, improving potential networks.

Digital and Community Exposure

Sponsors are featured on our website and LinkedIn page. This extends your brand presence to a broader academic and professional audience beyond the event.

Sponsorship Packages

Benefits	Sapphire \$5,000	Platinum \$3,000	Gold \$1,500	Silver \$750
